Rising above the shoreline of Playa Encuentro, Villa Roge is one of the most advanced oceanfront estates on the Dominican Republic's North Coast. This newly completed 10-bedroom residence delivers resort-level amenities, cutting-edge systems, and a prime position on one of the Caribbean's most desirable surf beaches—making it a standout luxury investment.

The property occupies 2,110 m² of direct beachfront land and offers 1,200 m² of sleek contemporary construction. Glass-wrapped living areas, wide terraces, and a central courtyard create an open layout that pulls in ocean light and sea breezes from every angle. Organic textures and modern finishes complete the villa's understated, high-end aesthetic.

Each bedroom is privately set with its own en-suite bath, while dedicated entertainment spaces—including a full cinema room, a gaming lounge, and a rooftop jacuzzi—bring true boutique-hotel comfort to a private home. Outdoors, a temperature-controlled infinity pool, multiple BBQ areas, sun decks, and a private staircase descending to the beach define the villa's lifestyle appeal.

The open-concept kitchen, dining, and lounge areas are optimized for hosting, featuring premium materials and natural ventilation ideal for tropical living. Double-pane windows, blackout aluminum profiles, and solid-wood architectural elements add durability and style.

Villa Roge is located inside a secure, gated beachfront community with direct Hideaway Beach access, 24/7 security, and on-site amenities. For buyers seeking a luxury primary residence, high-yield rental property, or long-term coastal investment, this estate delivers top-tier performance in the Cabarete and Playa Encuentro real estate market.
